

DELINTE

We Invent. You Drive.

Performance-Enhancing
Compound and Tread Design

D7

ALL SEASON ULTRA HIGH PERFORMANCE TIRE

The D7 satisfies the need for speed ... and the craving for quiet. The D7 is V, H, W and Y speed-rated, so expect a "thundering" good time behind the wheel. You can also expect a comfortably quiet ride, too. Roll down the windows and enjoy!

Performance-enhancing compound and tread design. The D7's advanced high traction is tuned for performance, and so is the blaze-shaped tread pattern. Expect great traction, superb fuel economy and a comfortable ride.

Wet grip grooves. The four wide longitudinal grooves evacuate road water and resist hydroplaning.

Noise absorbing groove design. Groove shape and the scores on the groove sides absorb vibration and reduce airflow noise.
