

I love my new Movin' View stationary unit! This has been on my "wish list" for a long time! I must admit, I was nervous about making this purchase but the retailer I purchased from made my transaction and installation easy! We attend a lot of college football games and NASCAR races and do a lot of camping. If you camp or tailgate but enjoy the comforts of home, then you need a Movin' View!

Brandon Westmoreland, Arlington, Texas

I recently installed your MV3500T system on my motorhome attached to a new DISH 622 DVR. My concerns prior to installation were that both systems represent the latest and most advanced technology. I am pleased to report complete success with the operation of these two systems working together. The performance has exceeded my expectations. I am amazed how successfully your dish tracks the signals while moving at highway speeds, bouncing and turning. There is no annoying static or loss of picture.

The system performance is impressive, simple, and very easy to use. I would recommend it to anyone interested in such performance.

Fred Hendrix, Payson, Arizona

Made in USA - Winegard 2 year limited warranty.

Specifications for Satellite Antennas

Azimuth 0° - 720°
 Dome Material Sturdy UV protected plastic
 Base Material Powder coat aluminum
 Cables Included 30' power and 30' coaxial cable

Movin' View®

Elevation Range 20° - 74.5°
 Dimensions 32" diameter, 15.75" high
 Unit Weight 28 lbs.
 Shipping Weight 43 lbs.

RoadTrip™

Elevation Range 20° - 60°
 Dimensions 32" diameter, 12.5" high
 Unit Weight 35 lbs.
 Shipping Weight 50 lbs.

U.S. Patent No. 6023247, 6188300

Specifications for Satellite Interface

- Size (approx.): 9" W x 2 1/4" H x 6" D
- Weight (approx.): 1.2 lbs
- Color: Black

Package Contents for WB-2000 (for RVs with prewired communication cable)

- 1 - Satellite Interface
- 1 - Installation Kit

Package Contents for WB-2700 (for RVs NOT prewired with communication cable)

- 1 - Satellite Interface
- 1 - 30 ft MV/RT Power and Communications Cable
- 1 - Installation Kit
- 1 - 2 ft coaxial cable
- 1 - Software Upgrade Tool

**Movin' View® & RoadTrip™
 Dome Satellite TV Antennas**

Designed with you in mind...

The Signal You've Been Looking For™

15" Movin' View[®] antennas

12" RoadTrip[™] antennas

Common Features of Movin View & RoadTrip Antennas

One Button Operation

You will appreciate the ease of use. Simply push one button to turn the antenna on and off. Our hassel-free antennas automatically switch between two satellites without the need for a separate satellite switch.

DVB

Digital Video Broadcast (DVB) locates the satellites fast and accurately. It also creates a better chance at locking on the correct satellite in heavily covered areas with multiple line of sight blockages. *Winegard was the first to offer DVB exclusively for all our domed satellites.*

Automatic Satellite Switching

Automatic Satellite Switching is the satellite dish's ability to automatically switch from the primary satellite to the secondary satellite **while parked or in-motion**. Choose the desired channel from a complete program menu and the dish will automatically switch to the correct satellite without losing the picture. Used with DISH Network[™] (satellites 110° & 119°) and DIRECTV[®] (satellites 101° & 119°) in the continental U.S. and Bell ExpressVu (satellites 82° & 92°) in most of Canada. *Winegard was the first to introduce the automatic satellite switching feature.*

HD Capable**

View all programming including HD for DISH Network (110° & 119°), DIRECTV (101° & 119°) and Bell ExpressVu (82° & 92°). DISH 1000 and DIRECTV Plus customers require Satellite Interface to access additional satellites and receive HD programming.

Dual Receiver Capable

With the dual LNB, you can watch two different programs at the same time on the same satellite. No more fighting over the remote!

Great Price

Winegard provides the latest technology at affordable prices. No extra accessories are required and there are no hidden fees. Black dome models available at no additional charge.

Plus...

- **Stationary and In-motion** models
- Compatible with **DIRECTV** and **DISH Network** in the continental US and with **Bell ExpressVu** in most of Canada only

** Requires HD ready TV and HD receiver (sold separately).

Satellite TV reception may be disrupted by weather conditions or obstructions such as trees, buildings and overpasses.

Additional Features of RoadTrip Antennas

- **Small, compact** antenna design
- **Tuned dome** does not weaken signal
- **Sleek, low profile** design
- **Upgrade option** on stationary models*
- **Same great performance** as Movin' View

*** RoadTrip Upgrade Kit**
RT-1205 From Stationary to In-Motion

Movin' View models NOT upgradeable.

THE HD SOLUTION! Satellite Interface

Receive HD Programming

Receive HD programming by accessing additional available KU Band satellites (DISH Network 129° and DIRECTV 110°) with HD receiver and HD-ready TV.

Automatic Satellite Switching

Automatically switches between satellites for DISH 1000, DISH 500, DIRECTV Plus, and Bell ExpressVu. Manual mode allows users to acquire listed KU Band satellites.

PROGRAMMING AVAILABLE SATELLITES

PROGRAMMING	AVAILABLE SATELLITES
DISH 500	110° and 119°
DISH 1000	110°, 119° and 129° <i>Exclusive to Winegard</i>
DIRECTV	101° and 119°
DIRECTV Plus	101°, 110° and 119°
Bell ExpressVu	82° and 92°

Current KU Band satellites 61.5°, 72°, 82°, 92°, 101°, 110°, 119°, 129°, 148°

Upgradeable

Satellite Interface can be used with Movin' View 3500 series or RoadTrip SD & SDi series satellite TV antennas. No need to buy a new satellite antenna!

Small, Compact Size

Perfect for your RV. Easily fits into overhead cabinet.

Easy to Operate

Most functions require user to push only 1 button.

Added Features

- Easy to read LCD display for smooth operation
- Diagnostics feedback for simple troubleshooting
- Customizable settings such as adjusting sleep mode

HD Converter WB-1100 required for DIRECTV users (sold separately)
