

Mantis H1100 Wireless Headset for Mobile Phones with customizable soft earplugs

The Mantis H1100 lets you communicate with comfort all day long. Talk whenever and wherever you want, on a bluetooth headset that's so comfortable, you may even forget you're wearing it. Unlike most of the "one size fits all" models that fit poorly and cause discomfort to your ear, the H1100 was designed and manufactured just for you. With 3 different sizes of customizable, soft earplugs, the H1100 combines excellent audio quality with the superior comfort you deserve. Compatible with virtually all cell phones, it delivers sound that's so crystal-clear you'd swear you were talking face to face. And with up to 6 hours of talk and 200 hours of standby time, you won't have to worry about a dead battery cutting your conversation short. If all ears aren't created equal, then why should wireless headsets be any different?
