

Mantis S1000 Portable Speakerphone for Mobile Phones

The Mantis S1000 was designed with the true multi-tasker in mind. This portable, bluetooth speakerphone lets you communicate with clarity in the places where you talk the most. Whether you're driving in your car or working in the office, the S1000 gives you the freedom to talk, while remaining focused on the task at hand. And unlike most speakerphones that echo or sound muffled, the S1000 is armed with "CVC- Clear Voice Capture," which delivers sound that's so crystal-clear, you'd swear you were talking face to face. Compatible with virtually all cell phones, the S1000 will help you make the most of your valuable time. And with up to 10 hours of talk and 28 days of standby time, you won't have to worry about a dead battery cutting your conversation short. Experience a new way of mobile communication, where superior sound comes standard.
