

**BET YA DIDN'T KNOW... SAFEGUARD WILL APPLY ITS  
HI-TRACTION ANTI-SLIP SURFACE DIRECTLY TO YOUR PARTS**

# **INTRODUCING DIRECT GRITTING BY SAFEGUARD**

With Direct Gritting, you supply Safeguard with your parts (or an engineered drawing for fabrication) and Safeguard applies its Hi-Traction Anti-slip Surface directly to the area you specify. Direct Gritting helps reduce installation time, weight and cost. It is also the perfect solution when aesthetics are important or when mechanical fasteners are not an option (either structurally or due to unsightly screw heads).
